Rite Aid completes store sales as part of \$4.4B deal with Walgreens

By **Jason Scott**, March 28, 2018 at 8:29 AM

(Photo / File)

Walgreens Boots Alliance, one of the country's largest pharmacy operators, has completed its purchase of 1,932 stores from Cumberland County-based Rite Aid Corp. under a \$4.4 billion deal struck last year.

Rite Aid announced today that it has received nearly \$4.2 billion in cash for the stores it sold. However, three Rite Aid distribution centers and related inventory still need to be transferred to Illinois-based Walgreens, officials said. The distribution part of the deal is slated to begin after Sept. 1.

The **store-sale deal** was announced last summer following a failed attempt by Walgreens to buy Rite Aid outright. The **original Walgreens-Rite Aid deal** was unveiled in 2015, but came apart amid regulatory scrutiny.

With the store transfer complete, Rite Aid officials can now focus on **a plan** to merge the drugstore chain's **remaining 2,600 stores** with Idaho-based Albertsons Companies to form a new company with about \$83 billion in expected revenue.

Walgreens to acquire Rite Aid for \$9.4B

The plan for the new company is to have dual headquarters at the site of Rite Aid's corporate offices in East Pennsboro Township and at Albertsons corporate headquarters in Boise, Idaho. Rite Aid CEO John Standley will lead that new company.

The merger is expected to be completed in the second half of this year. Shareholders of Rite Aid will own up to 29.6 percent of the new company, while Albertsons shareholders would own all remaining shares. Albertsons is backed in the deal by Cerberus Capital Management, a private equity firm based in New York City.

U.S. Attorney's Office

Southern District of Florida

FOR IMMEDIATE RELEASE

Tuesday, June 11, 2013

**Walgreens Agrees To Pay A Record Settlement Of \$80 Million
For Civil Penalties Under The Controlled Substances Act**

Largest Fine Paid by a DEA Registrant

Wifredo A. Ferrer, United States Attorney for the Southern District of Florida, and Mark R. Trouville, Special Agent in Charge, Drug Enforcement Administration (DEA), Miami Field Division, announced that **Walgreens Corporation (Walgreens)**, the nation's largest drug store chain, has agreed to pay \$80 million in civil penalties, resolving the DEA's administrative actions and the United States Attorney's Office's civil penalty investigation regarding the Walgreens Jupiter Distribution Center and six Walgreens retail pharmacies (collectively "Registrants") in Florida. The settlement further resolves open civil investigations in the District of Colorado, Eastern District of Michigan, and Eastern District of New York, as well as civil investigations by DEA field offices nationwide, pursuant to the Controlled Substances Act (the Act).

The settlement, the largest in DEA history, resolves allegations that the Registrants committed an unprecedented number of record-keeping and dispensing violations under the Act. According to documents filed in the underlying administrative actions, the Registrants negligently allowed controlled substances listed in Schedules II – V of the Act, such as oxycodone and other prescription pain killers, to be diverted for abuse and illegal black market sales.

According to the most recent report from the U.S. Center for Disease Control and Prevention, prescription drug overdose deaths exceeded motor vehicle deaths and deaths from illegal street drugs, such as cocaine, heroin, and amphetamines in 2009. Oxycodone is a powerful addictive narcotic that is one of the most abused prescription medications in Florida and throughout the United States. Walgreens' Distribution Center in Jupiter, Florida was the largest supplier of oxycodone to retail pharmacies in the State of Florida.

U.S. Attorney Wifredo A. Ferrer stated, "Prescription drug abuse is a tremendous problem in Florida and throughout the country. Every day, individuals die from prescription drug overdoses. The record-keeping requirements of the Controlled Substances Act and DEA regulations are designed to prevent prescription pain killers, like oxycodone, from ending up on our streets. For this reason, we cannot allow pharmacies to circumvent their regulatory record-keeping and dispensing obligations."

DEA Special Agent in Charge Mark R. Trouville stated, "National pharmaceutical chains are not exempt from following the law. This settlement sends out a clear message that all DEA registrants will be held accountable when they violate the law and threaten public health and safety. The DEA will continue its efforts to work with our registrants and our law enforcement partners to combat pharmaceutical drug abuse and diversion in Florida."

The settlement agreement covers conduct that was the subject of DEA's administrative actions and the U.S. Attorney's Office civil penalty investigation. More specifically, the settlement covers allegations against Walgreens' Jupiter Distribution Center and six Walgreens' retail pharmacies. First, the Jupiter Distribution Center failed to comply with DEA regulations that required it to report to the DEA suspicious prescription drug orders that it received from Walgreens' retail pharmacies. Walgreens' alleged failure to sufficiently report suspicious orders was a systematic practice that resulted in at least tens of thousands of violations and allowed Walgreens' retail pharmacies to order and receive at least three times the Florida average for drugs such as oxycodone.

Second, the six retail pharmacies in Florida that received the suspicious drug shipments from the Jupiter Distribution Center, in turn, filled customer prescriptions that they knew or should have known were not for legitimate medical use. In addition, these retail pharmacies and others elsewhere in the United States failed to properly identify and mark, as required by DEA regulations, hardcopy controlled substance prescriptions that were outsourced to a "central fill" pharmacy for filling. Without Walgreens' retail pharmacies identifying these outsourced prescriptions, DEA could not accurately determine which prescriptions were filled from the retail pharmacies' own drug supplies and which prescriptions were filled by a "central fill." Consequently, DEA could not determine the accuracy of the retail pharmacies' drug records. The DEA's administrative actions demonstrated millions of violations of this type.

In addition to the \$80 million civil penalty for the above violations, Walgreens agreed to surrender the Registrants' ability to distribute or dispense controlled substances listed in Schedules II – V for two years, ending in 2014. As part of the settlement, Walgreens admitted that it failed to uphold its obligations as a DEA registrant regarding the above-described conduct. Furthermore, Walgreens has agreed to create a Department of Pharmaceutical Integrity to ensure regulatory compliance and prevent the diversion of controlled substances. Walgreens has also agreed to enhance its training and compliance programs, and to no longer monetarily or otherwise compensate its pharmacists based on the volume of prescriptions filled.

Since 2009, the DEA, along with its federal, state, and local counterparts, have partnered to combat the prescription drug abuse epidemic that has plagued Florida, culminating in Operation Pill Nation I and II and Operation Oxy Alley. These investigations have resulted in charges against more than 172 individuals, including 51 doctors and 24 clinic/pharmacy owners, the seizure of approximately 2.5 million dosage units of controlled substances, approximately \$16.6 million, real property, and exotic cars. In addition, approximately 42 doctors and 11 pharmacies have lost their DEA registrations through the issuance of Immediate Suspension Orders. As well, approximately 192 doctors and 68 pharmacies have voluntarily surrendered their DEA registrations following an official visit from the DEA. Lastly, DEA has also taken action against seven other Florida-based distributors.

This investigation was conducted by the DEA's Miami Field Office and the U.S. Attorney's Office for the Southern District of Florida, with the assistance of DEA's Office of Chief Counsel.

Mr. Ferrer thanked U.S. Attorney for the District of Colorado, John Walsh, U.S. Attorney for the Eastern District of Michigan, Barbara L. McQuade, and U.S. Attorney for the Eastern District of New York, Loretta E. Lynch, for their cooperation in this case. Mr. Ferrer also commended the investigative work of the DEA's Miami Field Office, as well as its DEA counterparts throughout the country for their work and assistance in this matter.

The civil penalty case was investigated and negotiated by Assistant U.S. Attorney Franklin Monsour of the U.S. Attorney's Office for the Southern District of Florida. The administrative case was principally negotiated by Lee Reeves, Associate Chief Counsel for DEA's Diversion and Regulatory Litigation Section, and also by Scott Lawson, who acted as lead trial counsel for the DEA in the administrative actions.

Walgreen to pay \$80 million in painkiller settlement

by Emily Jane Fox [@emilysjfox](#)

June 11, 2013 5:34 PM ET

The pharmacy chain has agreed to pay the largest settlement in DEA history.

Walgreen has agreed to pay \$80 million to settle allegations that the pharmacy negligently allowed painkillers to make their way onto the black market.

The settlement, the largest in the Drug Enforcement Administration's history, comes after an investigation into a Walgreen ([NYSE](#)) distribution center in Jupiter, Florida that received larger than usual orders of the prescription painkiller drugs from six pharmacies in Florida. However, the center didn't report the activity, as required by the enforcement agency.

As a result, three times the average orders for painkillers, such as oxycodone were delivered to the pharmacies. The DEA said the pharmacies knew the drugs were not for legitimate medical use and that there were tens of thousands of violations.

Oxycodone, a powerful addictive narcotic, is one of the most abused prescription medications in the United States. According to the U.S. Center for Disease Control and Prevention, prescription drug overdose deaths exceeded motor vehicle deaths and deaths from illegal street drugs, such as cocaine, heroin and amphetamines.

Related: Cash-only doctors abandon the insurance system

U.S. attorney Wilfredo Ferrer said the DEA has put record-keeping requirements in place — to keep prescription painkillers from ending up on this streets.

"Every day, individuals die from prescription drug overdoses. For this reason, we cannot allow pharmacies to circumvent their regulatory record-keeping and dispensing obligations," he said.

On top of the fine, the Walgreen center is banned from distributing and dispensing similar controlled substances until 2014. The settlement also resolves similar investigations nationwide, including in Colorado, Michigan, and New York.

Walgreen said in a statement that it has "identified specific compliance measures ... to enhance our ordering processes and inventory systems, to provide our team members with the tools, training and support they need to ensure the appropriate dispensing of controlled substances."

Walgreens Pharmacy Chain Pays \$7.9 Million to Resolve False Prescription Billing Case

Allegedly Offered Illegal Inducements to Government Health Care Programs Beneficiaries to Transfer Prescriptions to Walgreens

Walgreens, an Illinois-based corporation operating a national retail pharmacy chain, has paid the United States and participating states \$7.9 million to resolve allegations that Walgreens violated the False Claims Act, the Justice Department announced today.

The settlement resolves allegations that Walgreens offered illegal inducements to beneficiaries of government health care programs, including Medicare, Medicaid, TRICARE and the Federal Employees Health Benefits Program (FEHBP), in the form of gift cards, gift checks and other similar promotions that are prohibited by law, to transfer their prescriptions to Walgreens pharmacies. The government investigation alleged that Walgreens had offered government health beneficiaries \$25 gift cards when they transferred a prescription from another pharmacy to Walgreens. The company's advertisements that promoted gift cards and gift checks for transferred prescriptions typically acknowledged that the offer was not valid with Medicaid, Medicare or any other government program. Nevertheless, the government alleged that Walgreens employees frequently ignored the stated exemptions on the face of the coupons and handed gift cards to customers who were beneficiaries of government health programs, in violation of federal law.

"This case represents the government's strong commitment to pursuing improper practices in the retail pharmacy industry that have the effect of manipulating patient decisions," said Stuart F. Delery, Acting Assistant Attorney General for the Civil Division of the Department of Justice.

The allegations were brought to the government by two whistleblowers, known as relators, in two separate whistleblower lawsuits filed under the *qui tam*, or whistleblower, provisions of the False Claims Act and state False Claims Act statutes. The relators, Cassie Bass, a pharmacy technician formerly employed by Walgreens, and Jack Chin, an independent pharmacist, will receive \$1,277,172 from the United States for their role in filing the *qui tam* actions. The federal share of the settlement is \$7,298,124.

"This case vindicates and protects the interests of consumers throughout the nation by ensuring that they remain free from undue influence by large retail chains when making decisions about which pharmacies to entrust their own individual health care," said André Birotte Jr, U.S. Attorney for Central District of California.

"The law prohibits pharmacies from using their retail clout to lure patients whose prescriptions are subsidized by the government," said Barbara L. McQuade, U.S. Attorney for the Eastern District of Michigan. "Continuity with a pharmacist is important to detect problems with dosages and drug interactions. Patients should make decisions based on legitimate health care needs, not on inducements like gift cards."

"This settlement makes clear that corporations seeking increased profits over their patients' needs will pay a substantial price," said Daniel R. Levinson, Inspector General for the Department of Health and Human Services. "Violating Federal health care laws, as Walgreens allegedly did by offering incentives for new business, cannot be tolerated."

This resolution is part of the government's emphasis on combating health care fraud and another step for the Health Care Fraud Prevention and Enforcement Action Team (HEAT) initiative, which was announced by Attorney General Eric Holder and Secretary of the Department of Health and Human Services Kathleen Sebelius in May 2009. The partnership between the two departments has focused efforts to reduce and prevent Medicare and Medicaid financial fraud through enhanced cooperation. One of the most powerful tools in that effort is the False Claims Act, which the Justice Department has used to recover more than \$6.7 billion since January 2009 in cases involving fraud against federal health care programs. The Justice Department's total recoveries in False Claims Act cases since January 2009 are over \$9 billion.

This case was investigated jointly by the Commercial Litigation Branch of the Justice Department's Civil Division, the U.S. Attorney's Offices for the Central District of California and the Eastern District of Michigan, the National Association of Medicaid Fraud Control Units and the Department of Health and Human Services, Office of Inspector General.

The claims settled by today's agreement are allegations only; there has been no determination of liability.
